SUMMARY

I'm an enthusiastic solutions-driven developer with an eye towards implementations that optimize business intelligence functions. As an analyst by experience and a creative at heart pushing me forward, I deconstruct challenges to their base components to find efficient outcomes while utilizing my strength of bringing people together for cross-departmental collaboration.

EDUCATION

General Assembly   **Aug. 2020**
Software Engineering Immersive

University of California, Santa Cruz   **Dec. 2014**
Bachelors in *Economics*; Minor in *Technology & Information Management*

EXPERIENCE

USC Credit Union | Los Angeles, CA   **Nov. 2019 – May 2020**
Real Estate Associate
- Shifted the Real Estate department from a paper loan file process by implementing a paperless software solution where I modeled a fully digital workflow during the COVID-19 crisis.
- Lead training of seasoned Real Estate personnel and re-assigned employees on loan packaging software capabilities and best practices under short notice with an immediate directive of becoming Work From Home capable.
- Aggregated data for reporting purposes related to various KPIs on a weekly, monthly and quarterly basis.

Blacksheep | Sydney, NSW   **Dec. 2017 – Jul. 2018**
Music Performance Residency
- Entertained patrons with carefully curated selection of music utilizing precise audio mixing and professional music production software while communicating safety needs to hospitality personnel on a weekly basis.

SmartBiz Loans | San Francisco, CA   **Sep. 2016 – Jul. 2017**
Relationship Manager
- Managed a multimillion dollar portfolio of SBA 7(a) loans while working directly directly with business owners from dozens of industries throughout the United States and maintained a judicious relationship with senior lending partners to engage in prudent lending.
- Compiled and underwrote challenging SBA 7(a) loan packages in accordance with SBA Standard Operating Procedures and loan underwriting criteria as prescribed by partnered banks.
- Exceeded $1.1MM monthly volume goal on multiple occasions while receiving company recognition.

Bay Federal Credit Union | Santa Cruz, CA   **Jul. 2015 – Sep. 2016**
Financial Analyst
- Launched and completed automation projects implemented organization-wide to eliminate hours of daily/weekly duties in various departments using SQL, VBA, and relevant programming languages or tools.
- Analyzed general ledger accounts, generated variance reporting, completed quarterly federal regulatory reports in partnership with Finance Manager, and produced monthly financial statements for board and senior leadership.
- Lead on reconciliation of multiple vendor platforms ensuring integrity of data, analytics and liquidity models.
